

Special Issue:

Biological and Environmental Chemistry of DMS(P) and Related Compounds

Aquatic Sciences Volume 69, No. 3, 2007. pages 289-426

Preface: Biological and environmental chemistry of DMS(P) and related compounds

Gill Malin

DMSP and DMS in the Northwest Atlantic: Late-summer distributions, production rates and sea-air fluxes

Michael G. Scarratt, Maurice Levasseur, Sonja Michaud and Sylvie Roy

Distribution and cycling of dimethylsulfide, dimethylsulfoniopropionate, and dimethylsulfoxide during spring and early summer in the Southern Ocean south of New Zealand

Ronald P. Kiene, David J. Kieber, Doris Slezak, Dierdre A. Toole, Daniela A. del Valle, John Bisgrove, Jordan Brinkley and Alison Rellinger

Spatial variability in DMSP-lyase activity along an Atlantic meridional transect

Thomas G. Bell, Gill Malin, Young-Nam Kim and Michael Steinke

Particulate dimethylsulphoxide and dimethylsulphoniopropionate in phytoplankton cultures and Scottish coastal waters

Angela D. Hatton and Samuel T. Wilson

The effect of nitrogen limitation on cellular DMSP and DMS release in marine phytoplankton: climate feedback implications

William G. Sunda, Rance Hardison, Ronald P. Kiene, Eva Bucciarelli and Hyakubun Harada

Substrate kinetics of DMSP-lyases in axenic cultures and mesocosm populations of *Emiliana huxleyi*

Michael Steinke, Claire Evans, Gareth A. Lee and Gill Malin

Chemical "light meters" for photochemical and photobiological studies

David J. Kieber, Dierdre A. Toole, Joseph J. Jankowski, Ronald P. Kiene, George R. Westby, Daniela A. del Valle and Doris Slezak

Effects of solar radiation on the fate of dissolved DMSP and conversion to DMS in seawater

Doris Slezak, Ronald P. Kiene, Dierdre A. Toole, Rafel Simó and David J. Kieber

DMSP in marine macroalgae and macroinvertebrates: Distribution, function, and ecological impacts

Kathryn L. Van Alstyne and Melany P. Puglisi

The potential role of wound-activated volatile release in the chemical defence of the brown alga *Dictyota dichotoma*: Blend recognition by marine herbivores

Theresa Wiesemeier, Mark Hay and Georg Pohnert

Bacterioplankton community composition in nearshore waters of the NW Black Sea during consecutive diatom and coccolithophorid blooms

Elena Stoica and Gerhard J. Herndl

Effects of dimethylsulfoniopropionate (DMSP) produced by the cordgrass *Spartina alterniflora* on its epiphytic algal community

Gabriella Jackson and Joyce Stuckey
